Ooh baby where you running to?  
Cause you won't get very far  
And the light in your head, especially speaking so  
loudly  
That you gotta get out  
You're living a lie and you know it  
You gotta get free so you can be  
So you're running and running, running and running

To be free (x4)

The man in the town is pouring coffee for you to drink  
Put your head in your hands, take a sip of your life so  
you can think  
About your future and dreams, keep up the fantasy  
Let me out of your spin and it's on as you dream the  
last of your coffee

To be free (x3)

Get out, get free, be who you want to be  
What you gotta see, who you gotta see  
Get out, get free, be who you want to be  
What you gotta see, who you gotta see
