Traveling through life's long and lonely roads
In different places I lay my weary head
Knowing I got to do the right
And in wrong conditions I seek my daily bread
(oh) oh my gosh
(oh) oh what advice
(even denies) even denying my basic rights
(yeah yeah) oh jah is waiting on the higher side
With his tender arms (open wide) opened wide

This feeling
Touch my soul
This feeling
Touch my soul (believe me)

The more you live
The more you learn
And the things you learn
Will help you live and earn
And even though adversaries come around
That's when you show your faith
Be firm and stand your ground
(oh) and oh my gosh
(oh) oh what advice
(even denies) even denying my basic rights
(yea yeah) oh jah is waiting on the higher side
With his tender arms (open wide) opened wide

This feeling
Touch my soul
This Feeling
Touch my soul
This feeling I've got.
What a feeling
This feeling I've got

Traveling through life's long and lonely lonely lonely
roads
In different places
I lay my weary head
Knowing I've got to do the right

And in wrong conditions I seek my daily bread
(oh) oh my gosh
(oh) oh what advice
(even denies) even denying my basic rights
(yeah yeah) oh jah is waiting on the higher side
With his tender arms (open wide) opened wide

This feeling
Touch my soul
This feeling
Touch my soul
This feeling
Touch my soul
