I carried the stones
That you threw and walked on
I could not carry the weight anymore

I put you down
Just as you picked me up
It was all that I could do
It was all that I could do
It was all that I could do

I put you down
Expression stone cold
As I let you go

I could not carry the weight
Anymore

I put you down
Just as you picked me up
It was all that I could do
As you picked me up

I put you down
Just as you picked me up
It was all that I could do
It was all that I could do
It was all that I could do
