13 slut's deep inside the ground
Scattered remain's never to be found
Victimes of my black axe
Raped and murderd raptured inside
Skull eyes weep tears of blood
Naked sacrificed dead
Stole their soul's blackest of night
Power stolen from their live's

Their life force surges thru my veins
Black magic sacrificed remains
I wrote these words with their blood
My missions completed
The holy church burns defeated
The blood on my hands
Granted me the powers of with i speak
Of 13 fuckin slut's now deceased

Mortal remain's burried in lucifer's park
Don't go there after dark
Raped slaughterd decomopsed
The blood on my hand's
