I got a wake up call, I got to make this work
Cause if we don't we're left with nothing and that's
what hurts
We're so close to giving up but something keeps us
here

I can't see what's yet to come
But I have imagined life without you and it feels wrong
I want to know where love begins, not where it ends

Cause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost got it right
But almost wasn't what I had in mind

We want it all and deserve no less
But all we seem to give each other is second best
We're still reaching out for something that we can't
touch
Cause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost got it right
But almost wasn't what I had in mind

You know there's nothing like this love
So we don't want to let it go

Cause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost it got right

But almost wasn't what I had in mind
