### "Fall for Something Real"

Visit "[Fall for Something Real](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's a new demo from lucie silvas: Fall For Something Real. Watch also my other vid's from lucie silvas' demo's!! MP3 is also available

Nobody wrote these words that I'm saying  
This is all a matter of fact  
Life isn't always like a movie  
You can't walk out and get your money back

I'm not sure I believe that you and me  
Were brought together by a twist of fate  
But I'm gonna love you like nobody loves you anyway

I can picture a fairytale ending  
Cause you weren't what I had in mind  
But every day with you is something that I choose  
And maybe that's why its right  
I'm not going to try an original line  
Cause every song has been used up  
But there's nobody like, no there's nobody like the two  
of us

So if you're going to fall for anything  
If you're going to fall for anything  
I am here in flesh and blood  
Something you can see, something you can feel  
If you're going to fall  
Fall for something real

You can add up all the moments  
Come to conclusions that you want  
But whilst you're looking for perfection  
You forget about all the good things you got  
I can't prove there's no one better for you  
But I can promise you all the same  
I'm going to love you like nobody loves you anyway

So if you're going to fall for anything  
If you're going to fall for anything  
I am here in flesh and blood  
Something you can see, something you can feel

If you're going to fall  
Fall for something real

You will find  
You'll never know  
What really works and what's for sure  
Nothing everything fits in it's place  
Make a room for all your beautiful mistakes

So if you're going to fall for anything  
If you're going to fall for anything  
If you're going to fall for anything  
If you're going to fall for anything  
Don't you know that I am here in flesh and blood  
Something you can see, something you can feel  
If you're going to fall  
Fall for something real

If you're going to fall  
Fall for something real.
