Hope is always on your side
They'll be days when it is harder to find,
You'll reach that mountain top some how
You may have to walk for miles
Cross the desert
Swim rivers wide
No matter who you are
You're someone's hero

When you feel like giving up
Just look how far you've come
'Cause when you take that first step
You know you've already won
You are so close you can almost
Hold it in your hands
May your faith be your guardian angel

There's no need to be afraid
You'll grow stronger with each chance that you'll take
There's no such thing as impossible
With your heart you can do anything at all

When you feel like giving up
Just look how far you've come
'Cause when you take that first step
You know you've already won
You are so close you can almost
Hold it in your hands
May your faith be your guardian angel

You'll fight and you'll break
You'll get down on your knees and pray
In the dark you'll find the light,
It will be worth the sacrifice
Somehow, someday, someday
You're gonna spread your wings and fly

When you feel like giving up
Just look how far you've come
When you take that first step
You know you've already won

You are so close you can almost
Hold it in your hands
May your faith be your guardian angel
Your guardian angel
