"Rotting Minds"

Visit "[Rotting Minds](#)" on MotoLyrics.com

Rotting minds of the weak, continued to spread their
disease
I've done my masters bidding, summon lucifer from the
east
Ending their plight, taking their life, taking their lives
Ending their lie's, rape and murder their wives
Destroying their pathetic book of lives

Move forward and appear, my lord lucifer
My kingdom await's for thee

Go away son of god, stay buried in your grave
Thy church is cursed and you are to blame
Dark worship in lucifer's name, christian bastard's
Panic struck in this hour, kill your self and get it over

Evil burns deep inside of me,
Destroying the alters of christianity
Burn the book of lies oohh blasphemy

Jesus christ sucks cock in hell
