Sterle crucifix, represents incompetence
Holy lie's of Jesus Christ
False prophet of eternal life
Holy fuck pompus liar
Belial laughs cast him in the fire
Burn in hell for sexual desire and blasphamy

God no longer exist's, his ass drowend in the watery
abyss
Leviathan rises forth, hunger satisfied by Jehovah's
corpse
Open your eyes you will see
Get the fuck up off your knees
Burn your bible in vain
Lucifer forever reigns

Traval the path of the left
Beyond the curtain of death
Into the divine abyss, mayhems always amiist

Slay the begotten lamb, his flock is the dust in the sand
Praise the black goat, his blessing we have invoked

Satan lives forever, on the gillotin Christ ghaed is
severd
Castration of your soul, your body rotts inside a hole
Decomposed inside the ground, ressurect from black
sorrsey
Lucifer laugh's as i do his bidding

Baphomet black one, scapegoat of 1000 young, grant
me the powers of thee
Power of black sorcery, 18th enochian key's summons
Lucifers blessing
Unlock the gates of hell, blackest unholy spell
Amon the god of desire, Satan the lord of the fire
