When a blind man sees for the first time
What he has now missed for all his life
Can he see the past is settling down at last?
It cannot change

CHORUS

When I said to you that we should part
When you said to me I broke your heart
It didn't take much guilt from a heart that doesn't tilt
It's unconditional love

When our love came down with no return
When we realized how much we'd grown
It still was much too late, don't argue with the fate

It is fair

CHORUS

I can't take no more
I can't take no more
Anymore of this and I will go crazy
Just give me a cure
And of this I'm sure
Anymore of this, we'll be going on like forever!

When our love came down with no return
When we realized how much we'd grown... oh no

It's unconditional love
It's unconditional love...
