13 slut's deep inside the ground  
scattered remain's never to be found  
victimes of my black axe  
raped and murderd raptured inside  
skull eyes weep tears of blood  
naked sacrificed dead  
stole their soul's blackest of night  
power stolen from their live's

their life force surges thru my veins  
black magic sacrificed remains

i wrote these words with their blood  
my missions completed  
the holy church burns defeated  
the blood on my hands  
granted me the powers of with i speak  
of 13 fuckin slut's now deceased

mortal remain's burried in lucifer's park  
don't go there after dark  
raped slaughterd decomposed  
the blood on my hand's
