crying out from the grave,her murdered soul enslaved  
voices from the grave,forever haunting me begging  
reanimation  
powers of darkness encircle her grave as she rose  
from the coffin

the sound of her voice from the grave calls to me  
releasing the undead (wipe out christ disease)

black magic working evil spells cast

rise forward from the grave,you will rise

evil in her eye's blasphemy church of christ  
never to die satan survives

rising again power in satan's name  
christian killing whore from the grave  
christian death is what she craves  
taste the sin's of human kind  
the blood it flows so divine  
your soul is mine
