Inside in my mind, I hear voices, voices of madness,
the madness posses your soul, in this Kingdom of hate.

I find the way, the end of all the lies.
I find the way, the final of this disgrace.
I find the invention, now is real the way.
I find the place, the fear is not escape.

Evil intention, perverse actions I will.
Evil redemption, Lucifer now is here.

I feel the darkness, I feel the pain, I see the pain in the
human's face, the gates of the Knowledge is open for
you.

The Knowledge is opened for you, away from this
human's reality, away, from this false morality, with
hate, with pure hate, in my dark soul.

Away from this human's reality, away, from this false
morality, I will deny your soul, spirit and your lie; I'm
living in war, with hate, with pure hate, in my dark soul.

I see the forest in the night a calm of this storm, in this
Kingdom of hate, internal feelings in my mind, in this
Kingdom of hate, with hate, with pure hate, in this
Kingdom of hate, lie, lie, in this Kingdom of hates, lie,
lie.
