Revenant from another world  
From the land of no return  
Sacrifice - supposition to live  
Screams of thousand skies  
Sodomitic immortality  
Cursed to burn in blasphemy  
Sovereign of the legions of death  
Evil God: You'll rise

[Refrain]  
Desecrator!, Agitator!

Twisted mind like an evil flow  
Answers will we never know  
Evil gods have forgotten my name  
Soon it's time to rise  
Necrosanct from another world  
Give to me the key of pain

Let me climb the stairs of doom  
Reach a thousand skies

[Refrain]

Through the gates like snakes they slither  
Through the vaults like a wind they blow  
When Son of fire is falling from the sky  
My force of evil follows me  
When heaven stands in flames  
And a lake of fire comes into my eyes

The circle is complete  
And demons bend for me  
Through the power of the gods  
Son of the flames arise!
