Written by Lucinda Williams

Baby, sweet baby, you're my drug
Come on and let me taste your stuff

Baby, sweet baby, bring me your gift
What surprise you gonna hit me with

Refrain:

I am waiting here for more
I am waiting by your door
I am waiting on your back steps
I am waiting in my car
I am waiting at this bar
I am waiting for your essence

Baby, sweet baby, whisper my name
Shoot your love into my vein

Baby, sweet baby, kiss me hard
Make me wonder who's in charge

(Repeat Chorus)

Baby, sweet baby, I wanna feel your breath
Even though you like to flirt with death

Baby, sweet baby, can't get enough
Please come find me and help me get f-----d up

(Repeat Chorus)

Your essence
Your essence
