Its ok...you don't have to be afraid
There's nothing to worry about cause we got it made
It's just a simple matter of... letting me into your
love
If you let that feeling come over you
Then there's nothing more that you can do. ...Just let
it go. Let it go

If its love you want..Hold out your arms
It's all right here its safe and warm
It's ok to feel good
That's the way it should be
Everything we have is fresh and new
I will open myself up to you like a rose..like a rose
Everything we have is fresh and new
I will open myself up to you like a rose... like a rose
