Only  
Only for a moment  
Falling  
In some other dream  
Someone else beside me  
Not you  
Though we're not together now  
I know I'll be  
More in love with you

Like an airplane  
Circling in the mist  
Solitary spirals in the air  
Seeking runways that we've missed  
Nothing more to fear  
We're there  
Just below the clouds  
The love we have is ours to share

Something in the spring  
A few short years ago  
Touched us has grown and overwhelmed us  
that may be why we hide  
our memories deep inside  
for in the winter winds  
Such little things  
Will warm and reassure us

Only  
But only for a moment  
When least expected  
Confusion  
Disillusion  
And at times we're strangers  
And you get lonely  
Like me  
It really doesn't matter  
I know it can only  
Make me love you more  
And you get lonely  
Lonely like me  
I know it can only

Make me love you more
