You're facing nothing - just a dead end walk

Try and shelter him - I hear you fall

Could be she's blinded by his ugly ways

To vain to leave, to scared to turn away

Only 4 years into this

Taste the blood on mommy's kiss

Walls - they speak the truth

And she's falling again

You're facing nothing - walking on the edge

You watch the time - it never seems to pass

But when it's over it just starts again

You're drowning in water, too deep to end

Make it up to falsify

Make it up your little lie

Watching walls around come crashing down

And I keep falling down

A breach of trust spoken too soon

A piece of glass reflects the pain

Inside a crowded room making her feel safe

And still the same excuse is

I keep falling

Poor hopeless whoever has fallen again

The truth lies in the eyes of innocence

You're gonna break some more you're gonna fall apart

She's only 4 years into this
