

Lucky 7 "If You Fall"

Visit "[If You Fall](#)" on MotoLyrics.com

I remember when we first parted
You left me broken hearted
But then I always took the blame
And you told me that i couldnt understand
that life meant more then what i have planned
well did you money get in the way?

(chorus)

I know youll never come
But if you ever fall
fall my way

if its wrong why do you call me still
Cause you dont want my heart to ever heal
you just keep me hanging on

because youre killed all my precious dreams
and your hit love never was what it seemed
you just keep me hanging on

I know youll never come
But if you ever fall
fall my way

chorus x 3
