17 and we were  
Strung out on nothing yet  
When we were young  
Sitting around and getting high  
In back of my 55  
When we were young  
If I could only be with her right now  
She'd know exactly how  
I feel about the two of us  
Running around the streets  
And raising hell  
She knows exactly who I am

And for her I'd do it all again  
In her eyes I tried to be a star  
Like a dog in the street  
Chasing after every car  
Toe to toe until the final round  
You know I always do the best I can  
And I'd do it all again  
When we were young  
All my life  
I've been waiting for you
