Put his coat on his shoulders
And slowly he walked away
Behind him he could hear
Those innocent voices
Crying out so bitterly saying

We did not start the war
But we fighting now
We did not start the fire
But we burning now

They were told many years ago
That their country is free
But they didn't understand
That it's not real, they never knew it was a

Mickey Mouse freedom, independence

Me come in a you country
That is said to be free
Me come in a you country
That is said to be free
Me sight corruption
Me sight starvation

Walking like a millionaire
'Cause you think you country is free
One thing you don't know is that
Your country is being remote controlled

Mickey Mouse freedom, independence
Mickey Mouse freedom, independence
Mickey Mouse freedom, independence
