Finally your time has come
Now's my chance to turn and run
Like I always do

Build a story in my head
It was love before we met
Happy, with my idea with you

Stay where you are
Please don't break my heart

Love you in my daydream
Don't open your mouth, open your mouth
Everything I'll ever need
Spoil it now, spoil it now
You stood up and I fell down

Watching me, watching you
I know what you wanna do
But I'm afraid of my wish coming true

So I paint a picture in my mind, that
I go back to older times
It's better than being with you

Stay where you are

Please don't break my heart

Love you in my daydream
Don't open your mouth, open your mouth
Everything I'll ever need
Spoil it now, spoil it now
You stood up and I fell down

I don't know how to come down
I was lost and now I am found
You stood up and I fell down

Love you in my daydream
Don't open your mouth, open your mouth
Everything I'll ever need

Spoil it now, spoil it now

Love you in my daydream
Don't open your mouth, open your mouth
Everything I'll ever need
Spoil it now, spoil it now

Love you in my daydream
