Color me your color baby  
color me your car  
color me your color darlin'  
I know who you are  
come up off your color chart  
I know where you're comin' from

Call me  
on the line  
Call me call me any any time  
Call Me my love  
when your ready we can share the wine

cover me with kisses baby  
cover me with love  
roll me in designer sheets  
i'll never get enough  
emotions come I don't know why  
cover up loves aliby

Call me  
on the line  
Call me call me any any time  
Call Me my love  
when your ready we can share the wine

any time any place anywhere any way  
any time any place anywhere any day

Call me  
on the line  
Call me call me any any time  
Call Me my love  
you can call me any day or night  
CALL ME
