Love is fast, love is slow
Love always knows where it wants to go
Love can be old and love can be new
Love is what you make and love is what you do

Love's a roller coaster running on track
Don't look down and never look back
Love is the engine that gets you up the hill
Love is the speed and the noise and the thrill

Chorus
Oh, love is the ride if you're riding with me
Love is the ride if you're riding with me
Love is the ride if you're riding with me
Oh, love's the only ride

Love fights back and love gives in
Love's no saint, sure ain't no sin
Love can be soft and love can be tough
Too much love is never enough

Love is the dance that you stumble through
A little Texas Two Step, a little Tango too
Move with me baby get closer to me
A little dancing and kissing is all we need

Chorus

Love is the ride if you're riding with me
Love is the ride if you're riding with me
Love is the ride if you're riding with me
Oh, love's the only ride
Love's the only ride
