There is no one else around the road is quiet, the only sound

Is wind that sounds like cars that sound like breathing
The desert air is hot and dry two lanes weaving earth and sky

The stars are all that's keeping time till morning

And I turn and look beside me and you're sleeping like a baby

And you haven't heard a word that I've been saying
And the way you look tonight fast asleep in the dashboard light

Well I can't speak that's how I feel

Open your eyes and look at me and look at me

Open your eyes and look at me

'Cause I have and hold this love for you

Before this ten year night is through, I'm telling you

Take it from me, take it from me

We're ten years older, I know we are

Than the night we met in that downtown bar

You thought I was some kind of star

That's what you said

I felt your skin, I felt the heat

As you pulled me out into the street

And you kissed me there till I was weak

'Cause I asked you to

And later on your kitchen floor

Two flights above the grocery store

I felt things I never felt before and I still do

Open your eyes and look at me and look at me

Open your eyes and look at me

'Cause I have and hold this love for you

Before this ten year night is through, I'm telling you

Take it from me, take it from me

Going eighty on the highway

We're all rushing somewhere

But the way I feel tonight
It's like I'm already there

Open your eyes and look at me and look at me
Open your eyes and look at me
'Cause I have and hold this love for you
Before this ten year night is through, I'm telling you
Take it from me, take it from me
