Nothing really matters,
If I can't be with you now
My heart is beating faster,
Tell me what to do now
Got to be better ways,
Than telling to your face
Got to find some gravity,
Before I lose my sanity
Everytime I'm around you,
I never know what to say
Everytime I'm around you,
You take my breath away
Chorus:
Come and see me,
I'm the girl next door
I don't think I've ever been in love before
Come and see me,
I'm the girl next door
You got my attention, that's for sure
Come and show me what's more
Time and again,
I'm acting like a fool, yeah
Looking like a jerk,
Trying to be cool, yeah
I'll be good, I'll be fine
If only I can make you mine
Here I go, win or lose,
Do or die, got to choose
You take my breath away
Chorus:
Come and see me,
I'm the girl next door
I don't think I've ever been in love before
Come and see me,
I'm the girl next door
You got my attention, that's for sure
Come and show me what's more
