Sister mother so glad to see ya
Glad to see your parole came through
Oh ya so glad everyone came out this mornin
We readin from the book of hush today
Verse 69 Come on somebody Come on somebody
Good to see all of you came out this morning
Even though some of you just leavin 112
Smellin like booty and hennesy
Come on cavasea double shots (laugh)
It dont matter

Chorus X2 :
Keep it on the hush
Dont say nothin
Aint gonna be no talkin
While im doin my thang

Ludacris

Im lovin the way your legs go so far back
Your one of them flexible girls
I figure you daddy always said you were one of the
best in this world
But never the less in this world
Im just professional girl
Teach em a lesson have em stressin and have em
confessin to girls
How good it was and how good it could be if they just
tried it
Takin my double dose and skip the daily dick diet
To ride it, they so excited they cant hide it
Im trying to do my thang but you gotta be quiet

Chorus X2

And even when i just come in your house and cover
your mouth
Because your mamas at home
You grippin the sheets and makin an effort not to holler
and moan
You got to keep it on the hush
Cause we in no rush

You tellin me its the little things that mean so much
And its an illusion thinkin you can match what i can do
best
So if your man call tell him to put some hair on his
chest
But he dont even have to know
We keepin it on the low
You walkin it like a dog
And stay workin it like a pro so

Chorus X2

Im gonna taste your neck
And begin to nibble around your earlobes
Down to your belly button
And then im unsnappin your bra
Like your titties are tryin to tell me somethin
Hard nipples colder than icecicles
Workin it with my tongue you can just tell me if it tickles
Freaky deaky kinda sneaky ludacris in the game
Disturbin the peace
We runnin the streets and steady slangin them thangs
But you gotta keep the noise down
In order to keep the boy down
Its joy all around
And you know how it sounds if you just

Chorus X2

As the choir sing the doors are open (the doors are
open)

Chorus X6

Look at your sister johnson in the front row
With thongs on and you legs open trying to tempt me
Keep it on the hush i be over there about 7 o clock
Keep it on the hush shhhhhh
