[Ludacris]

A lady in the street but a freak in the bed  
Lady in the street but a freak in the bed...  
Lady in the street but a freak in the bed  
Lady in the street but a freak in the bed

[Chorus: Ludacris]

See she makes her own money, pays her own bills  
Always stays fly, keeps it so real  
But behind closed do's she a nasty girl (yup)  
Behind closed do's she a nasty girl  
She got a crazy little figure, nice round ass  
Walks so proper, talks with such class  
But behind closed do's she a nasty girl (yup)  
Behind closed do's she a nasty girl

[Ludacris]

Yeah, I met this girl named Keisha, she was so sweet  
(yup)  
Nails stay manicured, pretty little feet (woo!)  
Shoes so sexy, body so hot  
Hair lookin like she just came from the shop  
Legs so smooth, clothes so tight  
Style so sexy, makeup just right  
Never too much, never too little  
Black lace bra, Vickie Secrets in the middle  
Eyes so innocent, smile so bright  
Works in the mornin but she'll party all night  
All for her man, all cause she bout it  
All cause she crazy in love and don't doubt it  
Product of her birthplace, know about the streets  
Clean in the workplace, dirty in the sheets  
Keeps her own toaster, makes her own bread  
Lady in the STREET but a freak in the bed, cause

[Chorus]

[Plies]

Okay, okay, haha  
I got a college girl who go to church e'ry Sunday  
Had her sneak out of choir rehearsal to put it on me

But she's so innocent, when she ridin, mami  
One thing about her, she get her own money  
Gave it to her yesterday while she was doin laundry  
Favorite chore of mine, it's my lil' bunny  
Bowl-legged and classy, such a real woman  
Sex all night, go to work e'ry mornin  
Text me from work and told me she was horny  
Text her back and told her, "Me too mami"  
When you get off work, daddy gon' punish  
You my nasty girl forever I promise

[Chorus]

[Ludacris]

I got a doctor girlfriend that tells me, "Come home soon!"  
She plays like my house is her emergency room  
Tells me to undress and to lay on the sofa  
Checks all my vitals like a doc's supposed ta  
All white coat, all white heels  
And nothin underneath so it's an all night deal  
I'm her number one patient and delighted to be  
And when she needs her medicine I give her vitamin D  
But wait! I got a lawyer girl that's so wild  
And every single night she wanna take me to trial  
Said she needs some evidence, and to show her the PROOF  
So I put her on the stand and I give her the truth!  
Cause I'm hung like a jury (jury)  
Judge Luda preside over your body and I'm never in a hurry  
You may proceed, let the games begin  
And if I call a mistrial we gotta do it again

[Chorus]
