Over Now by Christine Anderson

A beam of twilight shattered  
By the drumming rain  
And I can see your sadness  
I can feel your pain  
And all the pieces we could  
Never seem to fit  
You drowned them all in alcohol  
Baby you're forgetting that it's

Over now  
Over  
It's over now  
You've got to say it with me  
You're not coming over  
Over now  
Over  
It's over now  
You've got to say it with me  
La dah da dum da da dieya  
La dee dah dah dah dum  
La dah da dum da da dieya  
La dee dah dah dah dum  
And all the pieces we could  
Never seem to fit  
You drowned them all in alcohol  
Baby you're forgetting that it's

Over now  
Over  
It's over now  
You've got to say it with me  
You're not coming over  
Over now  
Over  
It's over now  
You've got to say it with me
