Oh baby, baby, how i lose my mind
Time is quite the killer when you're left behind
The airbag held you 'til the engine slept
At home your pillow cooled while the willows wept

[CHORUS]

They come and go, love (Come and go, but they, but they)
But they're all the same (d-da, d-da, da da, da da)
even big, bad bad boys get scared at night
it keeps them safe (at home baby)
I'm gonna throw this rock down (gonna throw it down,
let it roll)
Tonight's the night (tonight)
I'm gonna go out, fire it up, honey (I'm gonna lose'em
when i)
Gonna turn back time

Remember in the summer when I held your hand
on the southern shore, finding fossils in the sand

Oh, baby maybe someday you will find me
on that beach beside you again

[CHORUS]

He we go!

[CHORUS]

I'm gonna save your life
