You've been our hero  
Since the day you escaped the rock in indian cave  
And beloach stole the golden kidso  
Marcus almost lost his lid  
Now abners gone  
You're in nepal and you've helped build the staff of rah  
Sala helps you find the well of souls  
Ark of the covenant is in some big hole  
You found the ark  
Beloach died so you and shortround left shangi  
Reggie followed you and now you've got to find the  
secret stones  
Somehow you eat eyeball soup and monkey brains  
roaches  
And escaped from the chains  
You found the key ooh indy you're such a nutcase  
Indiana jooooonnnneesssindiana  
Jooooonnnneessswooooonnnneeeessss  
Your dads not dead and lisas cute  
But she knows germany and hitler too  
But in the end she dies dead as a log  
Did you know you're named after your dog  
Once again you find what you're looking for  
Holy grail of the Lord  
Diamonds gold women rubies  
Why didn't they ever make more movies
