Everything comes to an ending  
No matter who you are above  
I am here and I'm pretending  
That I don't miss the things I love

Don't make me feel bad for the things that I can't  
change  
Don't lay my life out let me make my own mistakes

(Chorus)

I'm running from reason  
Kicking and screamin'  
Don't run my life  
I know there ain't no second try  
'Cause I just wanted to be 18  
I wasn't built for waiting  
Just let me live my life  
Let me be

It's like you think I never listen  
Don't discriminate, don't make me hesitate  
And I, I think things happen for a reason  
I always run so fast, I can't hear what they're sayin'  
Don't turn up your nose and turn away your head  
I may be younger but I'm smarter than you said

(Chorus)

Don't blame yourself  
Oh, I just can't figure me out  
You walk but I run  
You're not me, I'm the only one

(Chorus)

Yeah, let me be  
Oh, let me be  
Let me be
