i sit .. in my head dreaming and check on line
ohhhh, when i see a couple ..
i can get so though with ..
i am ..now to me and i feel love butterflies, butterflies,
was ..in my heart speak when i think of love divine,

ohh dear diary, wish i knew a life sky is ..meeee
ohhdear diary, every flower needs the honey bee.

i wake for the number four when i get off work at nine,
uhh ohh
turn the key open the door, .. the radio and cry ohh.

ohh dear diary , wish i knew a life sky is ..me
ohhdear diary, every flower needs that honey bee.

was a stunt to my rain dry, .. on and on and on and ..
was the only one i own to come it tear
my dear, my dear, my dear, dear diary
dear diary wish i knew a life sky is €me
ohh dear diary, every flower needs that honey bee,
dear diary, dear diary.
