"Love Insomnia"

Visit "[Love Insomnia](#)" on [MotoLyrics.com](#)

Give me a little space
I'm not satisfied
Crazy little things
Come across my mind
Never change your face
Telling little lies
But come inside

Give me a little faith
I've been walking down
Faced with my fears
All trembling around
And it seems all these streets
Have been tough to fly
But still I'm alive

Go on and find me
In these never ending nights
Go on and find me
In those heavy-drinking bars
I've been down and
I've been ill, I'm sick of
Love Insomnia

Give me a little strength
I've been weak alone
Dazed and deceived
To find my own
And I need you here
To hold me on
Will you be my love?

Go on and find me
In these never ending nights
Go on and find me
In those heavy-drinking bars
I've been down and
I've been ill, I'm sick of
Love Insomnia
