"Too Long"

Take me to the sun
Spread this feel around
Let's make it to the stars
Nothing's gonna bring me down

I've been waiting for too long to see

Searchin' for a sign
Round and round we sail
It's all like children's game
Mindless&Innocen;t

I've been for waiting for too long to see

Chasin' a better chance
Rising sand
So afraid to fail
Prisoners of ourselves

Are we ever gonna change our ways

Night is a mystery
It's secrets and it's calm
When whispering moment ends
My friends they're so afraid

Are they ever gonna find their way

Too long
I've been waiting for too long to see
