Love is a place I dream of  
A face that never leaves my mind  
Sorrow is over my shoulder  
But it's over

Someday I will cross the world for you  
No matter how far  
Just to be there  
Someday I will hold you in my arms  
So special you are  
Wait and see my love, set you free

Love is a place I dream of  
I hear you cry so far away  
There is a bridge I'm building  
Take me to the one I love someday

Someday I will cross the world for you  
No matter how far  
Just to be there  
Someday I will hold you in my arms  
So special you are  
Wait and see my love, set you free

I'm coming home child
