"The Smile I Live For"

Visit "[The Smile I Live For](#)" on MotoLyrics.com

It took a lifetime to find you
And now I want you to stay
Oh, I don't mind you can do anything
You can love me night and day

When you are there just to know you care
Brightens up a starless night
Your smile is all that I, that I live for
And I don't know what I did before

Your smile, your smile
Makes it all worthwhile
Then you changed it around
Don't let your little baby down

You were the only one
Thought I had you on the run
But now I guess, it's me
Begging you, begging you

When you are there just to know you care
Brightens up a starless night
Your smile is all that I, that I live for
And I don't know what I did before

Your smile, your smile
Makes it all worthwhile
Then you changed it around
Don't let your little baby down

You were the only one
Thought I had you on the run
But now I guess, it's me
Begging you, begging you
