It's Like a bolt of lightning hits me in my chest  
Right out of the blue  
Every time I see you  
Every time I see you  
Top of the world I'm standing rocking at my best  
Then I look like a fool  
Every time I see you  
Every time I see you

## Chorus

You're like a wreck out on the highway  
I can't look away and I can't pass through  
You're like an early morning Monday  
Bringing me down messing with my mood  
I'd love to say I can hold myself together  
But I can't help but come unglued  
Every time I see you  
Every time I see you

I wanna tell you everything I ever wanted to say  
But I never do  
Every time I see you  
Every time I see you  
I'm sure my steering wheel and dashboard would  
Love a good break  
But they feel it too  
Every time I see you  
Why I gotta see you?

## Chorus(x2)
