It feels like I woke up one mornin
And it all changed without warnin
I don't know how our paths crossed
But all I know is I've been lost
Now it's hard to think that we were ever strangers

Was it the wine or the moonlight glowin
The way we were dancin on that old dirt road
Was it the sweet song she was singin
Or the way it all happened without even thinkin
I've been on the edge, I've been on the brink
But I don't think I've ever been this far
So yes I, whoa yes I
Yes I'm in love with the girl

Talk about being caught off guard
Talk about an 'ol boy fallin hard
Think about a few weeks flyin by
And talk about about losin track of time
Now I'm countin every second until I see her

Was it the wine or the moonlight glowin
The way we were dancin on that old dirt road
Was it the sweet song she was singin
Or the way it all happened without even thinkin
I've been on the edge, I've been on the brink
But I don't think I've ever been this far
So yes I, whoa yes I
Yes I'm in love with the girl

I was cool with hangin around
Now I got plans bigger than this town
Sayin things I ain't never said
And being with her every chance I get
Heard the old man, said son when you know hold on
tight and don't let go
So yes I, whoa yes I
Yes I'm in love with the girl
