

Luke Benward "I Shine"

Visit "[I Shine](#)" on MotoLyrics.com

When everything's getting dark around you
So many clouds you just can't see through
Don't run away sun can make the sky break
Be who you are the time is now to

Shine with everything inside you
Shine so bright
Come on you know you want to
Cause your life is your light
You gotta let it
(Shine [x3])

No need to worry what they say about you
Your living stronger cause you know what's true
So what you say radiate don't back down
Be who you are the time is now to

Shine with everything inside you
Shine so bright
Come on you know you want to
Cause your life is your light
You gotta let it
(I shine, you shine, we shine, shine [x2])

Shine with everything inside you
Shine so bright
Come on you know you want to
Cause your life is your light
You gotta let it
Shine with everything inside you
Shine so bright
Come on you know you want to
Cause your life is your light
You gotta let it

Shine x3
Yeah

I shine, you shine, we shine, shine x2
