I don't get why she keeps going home to a man  
who's lost at sea  
when she could be here with me. So, jump on board  
and raise the  
anchor girl. You can do the waltz with me, don't you  
dare beg  
baby. But I don't feel like dancing anymore. There's  
so much guilt  
here. I just need to be alone. But she's still dancing on  
the kitchen  
floor. And I love the way she moves, it turns me on.  
'Cause I'm the  
Earth and she's the sun. She dress me up as her  
number one. It's  
over now, it's over now. Take me to the place I love.  
We gaze upon  
the universe. It's over now, it's over now. I'm taking  
back all  
years that I've lost. One day this will all be mine. This  
kingdom  
where I reside. With my girl at my side and a crown on  
my head.  
I'll share all of this with you. And that's all you gotta  
do. But I don't

feel like dancing anymore. There's so much guilt  
here, I just need  
to be alone. And she's still dancing on the kitchen  
floor. And I love  
the way she moves, it turns me on. 'Cause I'm the  
Earth and she's  
the sun. She dress me up as her numbee one. It's  
over now, it's  
over now. Take me to the place I love. We gaze upon  
the  
universe. It's over now, it's over now. She's so  
safe,  
she's so safe. With me, With me, With me, With me,  
With  
me. Oh Oh. I'm the Earth and she's the sun. She  
dress me  
up as her number one. It's over now, it's over now.

Take me to  
the place I love. We gaze upon the universe. It's over  
now, it's over now. Over. She's so safe, she's so  
safe.  
With me , with me, with me, with me. She's so safe,  
she's  
so safe. With me, with me, with me. Oh oh.
