Look how far we've come  
We've got farther to go now  
But what's done is done  
There's no use in looking back now

So long, so long,  
Yesterday's gone,  
We were young once before  
Farewell, farewell,  
Don't tell me I'm out of time,  
We've got the rest of our lives

There are places to go  
There are places to be  
When I'm with you I feel  
Living can come easily

There will be ups and downs  
There will be defeat and victories  
This world will wait for us  
And we'll be waiting at the edge of seas.
