I can see your lips moving But I can't hear a thing at all

I can see your lips moving But I can't hear a thing at all

I got lost in my own little world But makes no difference to me

Every single day I got lost along the way Every single day

All those things you have said They make no sense to me

We got lost in our own little world But it makes no difference to me

Every single day We got lost along the way Every single day Every single day

Hey, Every single day We got lost along the way Every single day

We got lost along the way We got lost along the way
