(Chorus)

The stranger in you
Who built the temple of love
The stranger in me
Turns the lights off

Buring feeling of desire
Made me the victim of
Your passion and affection

Our secret buried deep inside
Disguised as an innocent
Little game we always play

(Repeat chorus)

I can see your shape in darkness
As you invite me to
Burn the midnight oil with you

I am on the verge of ecstasy
My blood is running hot
Your scent sets me on fire

(Repeat chorus)

This night can't last
Reliving the past
I know I have to set you free
This night can't last
Reliving the past
It's time to meet..

(Repeat chorus 2x)

Turns the light off
The stranger in you
