Ohh baby baby you make me go crazy  
A game I ain't playin I must be your lady  
Yo I call her shorty like my dude's in the south do  
Lollipop In the jaw poeple In the mouth do  
Latina make It rain like katrina  
Got the guavalina we could hit the pecina

Baby you see I creep for week's  
Even step on the streets now I sleep on the beach  
Cause you movin on up showin all love that cush on the  
table you could roll It all up your friends all hate when

Cause I got you locked downkeep you right In the  
house  
Cooking that pollo quisado get my stomach like wow  
Just thinking about It I miss you right now  
I be actin like a fool when you call my number  
It must be a spell that you put me under  
Butterflies In my stomach like I'm twelve or somethin  
And my girls are lookin at me like I'm really buggin  
I swear that is crazy how you make me feel  
Got me figiting and movin I just can't stay still  
Like ow,ow pull up In the truck like ow,ow  
Got to aim It so high like ow,ow

Baby baby you make me go crazy  
A game I ain't playin I must be your lady  
Like ow,ow baby baby I'm not to shabby  
But If you really wit it come ride In my caddy

You be comming down the block with the boomin  
system  
Waitin all week no I ain't going to miss him  
Want to take you to a spot were is really jumpin  
Enough with the talking baby show me something  
Wit the frontin yeah you got me open  
And you keep laughin like you think I'm joking  
Like ow, ow pull up in the truck like ow,ow  
Got to aim so high  
Like ow, ow baby baby you make me go crazy  
A game I ain't playin I must be your lady  
Like ow,ow baby baby I'm not to shabby

But If you really wit it come ride in my caddy

Like baby baby dame baby you got me  
My last name nore but my first name papi

She still get jealouse off my my space page  
Chicks they want chase me, chicks they want date me  
Get me tied up In a hotel and rape me
