The cradle is empty. We need a full recharge, tonight's
the night for love.

Your beat up words, could even go away. I'm only
chasing you tonight.

I'd be better off alone, I'd be better off alone.

The cradle is empty. We need a full recharge, tonight's
the night for love.

Your beating heart, we need a full recharge. I'm only
chasing you tonight

When it comes right down to me, I could see you Ruth
Ellis now

Taking away every person that you hold dear, and I
might find you that way.

We need to try tonight

We need to try

We need to try...

We need to try tonight.

I'd be better off alone, I'd be better off alone.

I'd be better off alone tonight.

I'd be better off alone.

When it comes right down to me, I could see you Ruth
Ellis now

Taking away every person that you hold dear, and I
might find you that way.
