"Lust To Imprison"

Naked witch on my bed
Is it disease or lust
Show me what's on your mind
Is it so hard?

I'm just here to crawl in your legs
I'm to suck your breasts
Unleash your anger, desire and pain
I want to suffer

... raging soul
What's on your mind?
I want it to be hard.

Don't worry no one will get known
Whose job that bloody scar is
I know that you're not human
You're beast

Your nails on my back
Drawing the picture of madness
Your lips passionate
But face expressing the sadness
Why, please tell me why?
Am I too weak to give you pleasure
Or am I too real
