(Alabama)

A glowin' fire and fallin' snow, they spark a memory
Stockings hangin', mistletoe, presents beneath a tree
A happy boy wakin' up to toys, lookin' so surprised
And wondering how Santa knew just when I closed my eyes

It's a Homecoming Christmas, goin' back to where it all began
Homecoming Christmas, I wanna be there once again
Memories do sweet and strong and I've been done too long
It's Christmas time and I'm comin' home

I can see the Christmas tree and feel the warm fireplace
Handmade decorations, homemade pies and cakes
Family all together with so much love to share
A special time and I can't wait, can't wait to be there

It's a Homecoming Christmas, goin' back to where it all began
Homecoming Christmas, I wanna be there once again
Memories do sweet and strong and I've been done too long
It's Christmas time and I'm comin' home
