Woman made of paper, understand me now  
This time they got you by the ears  
You might be nothin' or just a footprint  
They've been watchin' you for years

It's a strange fascination  
It's a bliss  
It's a beggar's bliss

A double dance for twenty dollars  
You may be crooked but not cheap  
Go ahead and make a mistake  
That's what you're made of  
They've been watchin' you for years

It's a strange fascination  
It's a bliss  
It's a beggar's bliss

In the shadow of a candlestick your face appears  
Quickly, now is the time, why are we waitin'?  
Uptown, downtown I could care less  
I've been watchin' you for years

It's a strange fascination  
It's a bliss  
It's a beggar's bliss
