To those who say have a happy new year  
I have no fears  
Cause we're all one  
In my heart we are at peace  
Happy new year  
We're all glad, there's none that's sad  
And on the first day of our brand new year  
I slept and slept  
And in my dreams  
Giant turtles roamed the sky  
Happy new year  
For me and my girls  
The first one took such a long time  
She asked me why  
I told her no  
Then she told me i should go  
But i loved her so i stayed on through the years  
The next one was faster than breeze  
I won't forget  
Cause evey breath  
Every twinkle in her eye is part of you  
Happy new year  
To those who say have a happy new year  
I have no fears  
Cause we're all one  
In my heart we are at peace  
Happy new year  
We're all glad, there's none that's sad  
Happy new year  
We're all glad, there's none that's sad  
Happy new year  
We're all glad, there's none that's sad  
Happy new year  
We're all glad, there's none that's sad  
Happy new year  
We're all glad, there's none that's sad  
Happy new year  
We're all glad, there's none that's sad
